

Lime Dosing

Lime Dosing

WAMGROUP® offers specialised system components tailored to the specific requirements of project engineers of milk of lime processing plants. By selecting this specialised equipment, system designers have the assurance they will combine top quality and performance with the highest possible operating efficiency.

1	Screw Conveyors PR <i>Sturdy design</i>		25	Flap Diverter Valves VAB <i>Quick integration into the process</i>	
2	Single Shaft Screw Feeders DU <i>Efficient material extraction</i>		26	Drop-Through Rotary Valves RVC <i>Easy maintenance</i>	
3	WAMFLO® Silo Venting Filters <i>Easy filter element replacement</i>		27	Blow Through Rotary Valves RVS <i>Easy Maintenance</i>	
4	Butterfly Valves VFS <i>Easy and quick maintenance</i>		28	External Electric Vibrators <i>ATEX zone 22-compliant</i>	
5	Slide Valves VL <i>No seal adjustment required</i>		29	Vibrating Bin Aerators VB <i>For all powdery materials</i>	
6	VCP Spring-Loaded Pressure Relief Valves <i>Optimum work safety: ATEX zone 21-certified</i>		30	Continuous Single Shaft Mixers WAH <i>High productivity</i>	
7	Polymer Pressure Relief Valves VHS-C <i>Safety for people, plant and environment</i>				
8	EXTRABEND® & EXTRACURVE® Pipe Elbows <i>Abrasion-resistant lightweight design</i>				
9	Micro-Batch Feeders MBF <i>High feeding accuracy</i>		17	Probe Level Indicator ILK <i>Easy to install</i>	
10	Bin Activators BA <i>Discharging of lime from silo</i>		18	Differential Pressure Meters & Gauges IPE / IPM <i>Versatile and Economic</i>	
11	Lump Breakers DLP <i>Perfect de-lumping</i>		19	Silo Safety System KCS <i>One control panel for up to 16 silos</i>	
12	Manual Bag Openers RSM <i>Minimum-residue design</i>		20	Siren LSI <i>Malfunctioning alarm</i>	
13	Drop-Through Rotary Valves RV - RVR <i>Air-purged seals</i>		21	Power Panel SP <i>Part of KCS-System; one panel per silo</i>	
14	Rotary Level Indicators ILT <i>Easy to install</i>		22	Pinch Valves VM <i>Easy to install</i>	
15	Continuous Level Indicator ILS <i>Easy to install</i>		23	Drum-Type Diverter Valves for Pneumatic Conveying VAR <i>Easy to install</i>	
16	Vibrating Level Indicators ILV <i>Easy to install</i>		24	Diverter Valves for Pneumatic Conveying VAD <i>Easy to install</i>
